Business at a Glance

\$1.6M

Total Revenue

Across all U.S. regions

\$184.1K

Total Profit

Net earnings after costs

11.5%

Profit Margin

\$11.50 profit per \$100 sold

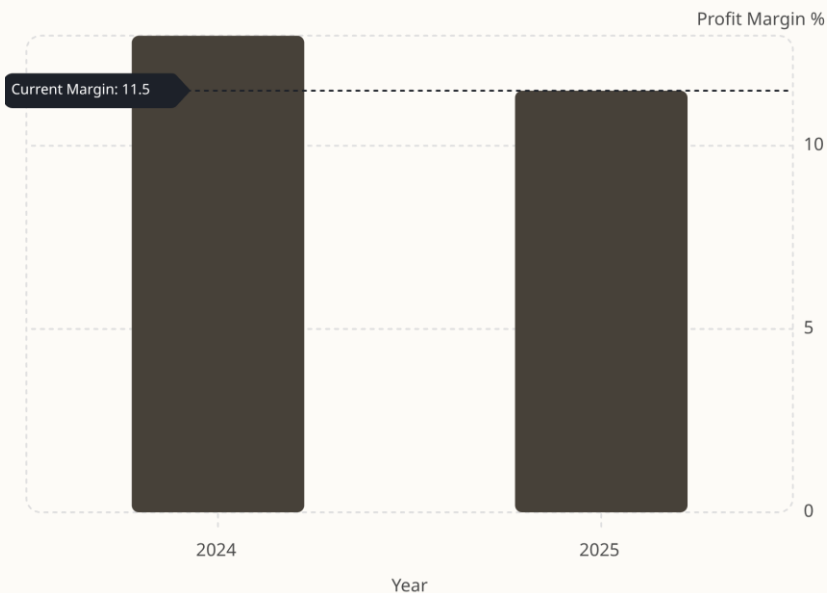

4

Avg. Delivery Days

Standard fulfillment speed

PROFITABILITY

Profitable — But Margins Are Shrinking

The Warning Sign

Sales are growing — but **profit per dollar sold is declining** year-over-year.

Cost pressure is eroding returns even as revenue climbs.

Margins fell from ~13% in 2024 to 11.5% in 2025

REGIONAL RISK

California Carries the Business

California

\$335.2K — More than NY & TX combined

Single-State Risk

A weak California year puts the entire business at risk

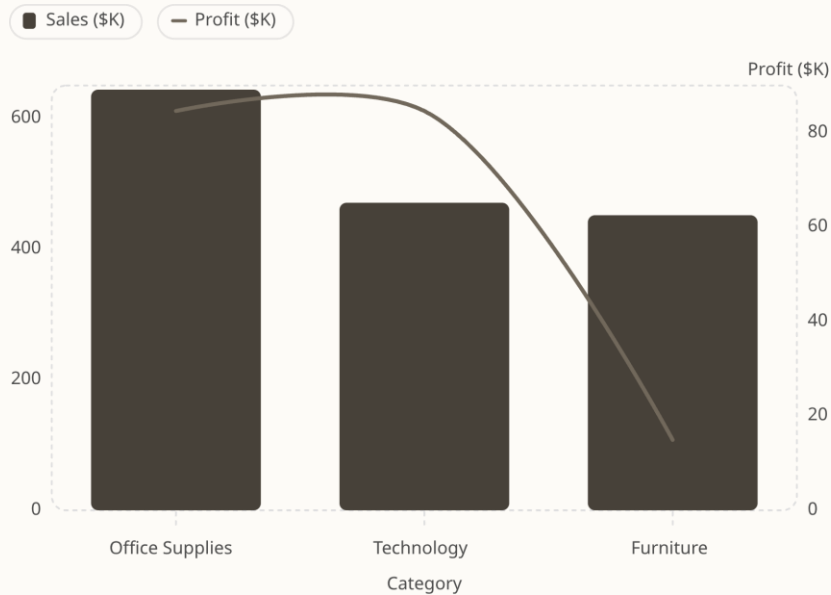

Action Needed

Diversify revenue across other high-potential states

CATEGORY PERFORMANCE

Top Categories: Sales $\neq$ Profit

Key Takeaways

- **Office Supplies** leads sales but Technology matches its profit
- **Technology** earns ~6× more profit per dollar than Furniture
- **Furniture** — \$451.5K in sales, only \$14.9K profit

❏ Technology is the efficiency leader — push it harder

SUB-CATEGORY INSIGHT

Phones Sell Most — Binders Profit More

📱 Phones — \$196.6K Sales

Top sub-category by revenue — but not the top profit driver

📁 Binders — Higher Profit

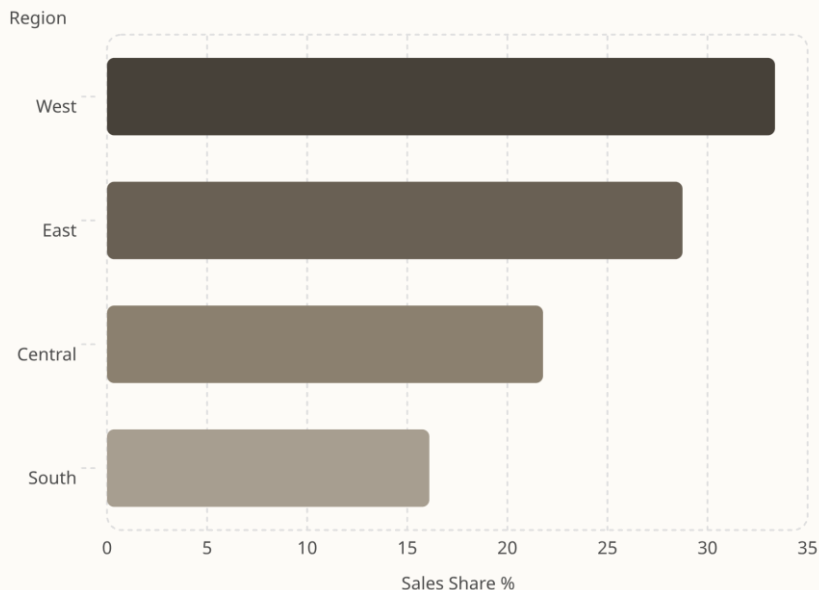

Lower sales volume, yet outperforms Phones on actual profit

💡 The Lesson

Highest-selling $\neq$ highest-earning. Rebalance promotional focus.

REGIONAL PERFORMANCE

East Underperforms — South Is the Opportunity

Regional Breakdown

- **West:** Leads in sales (33.37%) and profit efficiency
- **East:** #2 in sales but lower margins — needs attention
- **South:** Smallest at 16.1% — clear growth opportunity

📌 South region is underpenetrated — prioritize expansion

CUSTOMER SEGMENTS

Consumers Drive Nearly Half of Revenue

Consumer — \$753K

~47% of total revenue.
Individual buyers are the backbone.

Corporate — \$509.7K

32% share. High-value, underdeveloped segment.

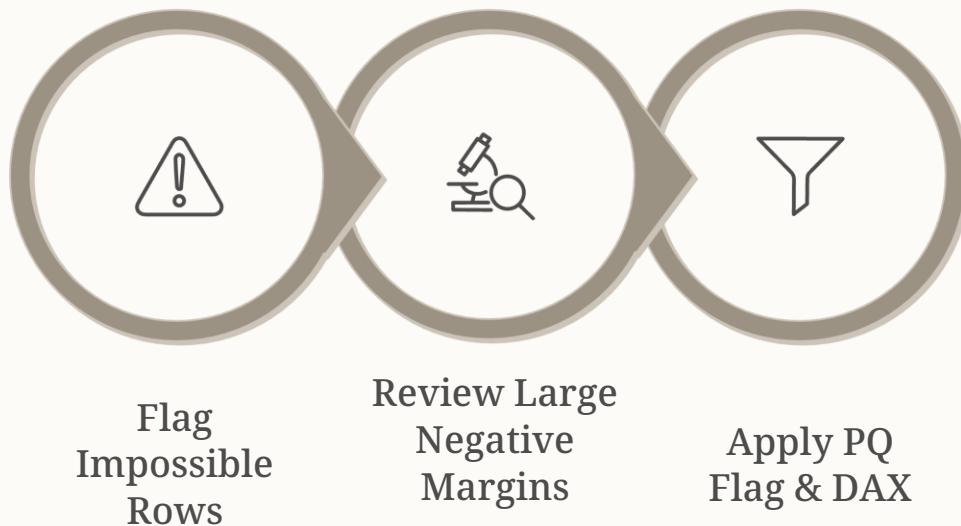

Home Office — \$303K

19% share. Remote-work trend is a growth lever.

Preferred payment mode: **Cash on Delivery**

Data Quality Audit: Profit Corrected

A full profit-column audit was conducted before publishing. Issues were flagged in Power Query and corrected with a DAX measure — adjusting profit from **\$175.3K** → **\$184.1K**.

SUMMARY

Key Takeaways & Next Steps

- **Protect the Margin**
Shrinking profit per sale demands cost review
- **Reduce California Dependence**
Diversify into South and underpenetrated states
- **Rebalance Category Mix**
Prioritize Technology; rethink Furniture pricing
- **Grow Corporate & South**
Target B2B buyers and expand Southern presence
